

NINTEX

When your work flows, you can work inspired.

Nintex Workflow Platform

Nintex workflow software and cloud services allow organizations to quickly and easily automate the hundreds or thousands of processes that make a business work using clicks rather than code.

By automating your workflow processes, Nintex lets you get more done, in less time, with less hassle. And the numbers prove it.

Nintex Workflow

Build entire workflows through an intuitive, browser-based, drag-and-drop workflow designer

Nintex Forms

Quickly design and publish web- and mobile-ready forms. Customize them for your specific data requirements and form factors using sophisticated business logic and rich HTML formatting

Nintex Mobile

Rapidly build, integrate, deploy and manage mobile workflow apps securely

Nintex Connectors

Connect workflows to other line-of-business systems and cloud services to create powerful workflow solutions

NINTEX

When your work flows, you can expand the work of every action.

Stay Ahead of the Curve

Nintex makes it easy to connect to the latest, user-friendly technologies. Create powerful solutions that put Salesforce and DocuSign to work. Deliver mobile-driven workflows natively to iOS and Android devices. With Nintex, you have access to an ever-expanding catalog of line-of-business and Web-based services. Nintex will help you stay ahead of the curve, remain relevant, and enhance your value to the company.

What's your time worth?

SHAREPOINT DESIGNER	COMPARISON	NINTEX WORKFLOW
\$150	Developer's Hourly Rate	\$150
4 days at 6 hours per day	Average time to complete the project	1 day at 8 hours per day
\$3,600	Total project cost	\$1,200

And that's just one simple project. How much could you save on more complex projects?

“ We're using Nintex Mobile and Nintex Forms for Office 365 to save more than £470,000 annually while our managers focus on what matters most – customer experience.
– Ian Cutler, Safety Assurance Manager, Mitchells & Butlers

“ Nintex helped us be a better brewery... It saved us time. It saved us a ton of money. It saved us a ton of effort.
– Tye Eyden, Collaboration Business Analyst, New Belgium Brewing

“ The power that the tool provides us is well beyond our initial expectations.
– Mark Palmer, Tendering Proposals Manager, Siemens

“ Our corporate customers can often get a credit line in less than a week and our retail customers can open an account in less than a day.
– Frederick Nathanael, Head of Operations at ANZ Bank

Embrace a workflow platform that quickly and easily automates your processes and lets you seamlessly connect your on-premise systems to cloud applications.
