

Job Posting

Job ID:	SPSRDEV
Job Title:	Senior SharePoint Developer
Start Date:	Immediate
Compensation:	DOE
Job Location:	Dallas, Texas, USA Bristol, England, UK

Description

BinaryWave, a leading provider of Enterprise SharePoint Solutions throughout the US and Europe, is seeking experienced, energetic, talented and results-oriented professionals to join our team of world-class SharePoint specialists. Qualified candidates will be expected to excel at delivering highly-customized, mission-critical, out-of-the-ordinary solutions to clients across a broad range of industries. This is an opportunity to learn the latest Microsoft technologies, including SharePoint 2007, .NET 2.0/3.0, WWF, and SQL 2005, in a fast-paced, challenging and enriching development environment.

Responsibilities

Responsibilities of a Senior SharePoint Developer include:

- Develop enterprise SharePoint applications using C#, ASP.NET, Windows Workflow Foundation, SQL 2005, AJAX, XML, and Web Services
- Implement, configure, administer and support SharePoint 2007 web farms
- Interface directly with clients to determine requirements and create specifications
- Direct individual and team development efforts
- Manage feature implementation and quality assurance for assigned projects
- Maintain coding standards and best practices
- Mentor junior developers
- Participate in community efforts, including blogs, newsgroups and events

Qualifications

Candidates must possess the following:

- 3+ years enterprise web application development in C#, ASP.NET, XML and SQL
- 2+ years SharePoint web parts, Object Model, web services and custom application development
- 3+ years in fast-paced team development environment
- Prior experience managing small development teams (2-5 persons)
- Proven track record delivering mission-critical applications within established timelines
- Excellent communication skills
- Ability to interact directly with clients at the VP level and above
- Microsoft certification strongly encouraged

Travel

Some travel may be required.
